October 9, 2017

To Whom It May Concern:

The Michigan Ovarian Cancer Alliance (MIOCA) strives to save women's lives by promoting the early detection of ovarian cancer and improved treatment outcomes. To accomplish these significant goals, researchers must be provided with the resources necessary to pursue innovative ideas.

MIOCA is committed to collaborating with ovarian cancer researchers by funding research in the state of Michigan. We are proud to provide the Michigan Ovarian Cancer Alliance Geri Fournier Ovarian Cancer Research Grant.

Enclosed you will find the grant application. We encourage you to forward this information to any researchers who might be interested in this grant opportunity. The grant application will also be posted on our website at <http://mioca.org>. If you have any questions about our research grants, please contact me at ElizabethWhite@mioca.org or 248-943-0376.

Thank you for your dedication to care for women with ovarian cancer and to explore ideas for possible early detection tests and improved treatments.

Sincerely,

Elizabeth White
Executive Director
Michigan Ovarian Cancer Alliance
